

A FAMILY connected

FOCUSED AROUND THE KITCHEN, THIS HOME
IS A DREAM COME TRUE

PRORENO KITCHENS 012 644 2113

The brief to Proreno Kitchens was to create an uncluttered floor-to-ceiling clean palette kitchen accenting the long and narrow Japanese-inspired sliver window. Proreno's designer created the kitchen in 600 modules and aligned the window exactly to the appliances. The company was also responsible for the cabinetry and work counter in the main bedroom. Here the finishes are in a light grey palette, with a protruding pod of four glass doors accentuated within a column surround of mono-coated oak.

When it comes to the ultimate family home, this sprawling property ticks all the boxes. The main brief to the architect was to create a home around the kitchen so that most of the rooms and activities could be seen from there. By doing this, the family is connected at all times no matter where they are in the open-plan space.

The house is designed as a square block with different levels of elevations throughout. "The open-plan design and big windows connect the inside and outside as well as all the rooms of the home," says the owner. And due to the expansive use of glass windows, every room has a beautiful view that changes throughout the day with different shades of light coming into every corner.

A grand piano commands attention and beckons to be played. Attention to detail was the order of the day when it came to conceptualising and creating this home, and the owners have personalised each space. "We love the city of Johannesburg, and to capture this there is a massive mural of the streets of Joburg inside," the owner says. >

BELOW: Proreno Kitchens specialises in the design, manufacture and installation of new cabinetry for kitchens, bedrooms, bathrooms and other areas of the home. For this home, the company was responsible for the cabinetry in the kitchen, scullery, bedrooms and bathrooms. The Caesarstone, Neolith and natural granite work surfaces were sourced by Proreno and installed by a specialist partner company.

YAMAHA MUSIC SOUTH AFRICA 011 259 7777

ABOVE: The musical instruments in this home were supplied by Yamaha. Taking centre stage is the Yamaha Grand Piano in a Polished Ebony finish. Yamaha's impressive range of musical instruments and pro-audio equipment are recognised the world over for superior quality in design, technology, craftsmanship and customer-oriented services.

BELOW: This modern contemporary "off shutter" concrete wall effect was requested by the home owner as a feature wall that needed to be installed over an existing painted wall. Teracoat Decorative Walling specialises in applying these walls over existing painted, plastered or even tiled walls with no chopping or mess and little to no inconvenience to its clients.

"The open-plan design and big windows connect the inside and outside as well as all the rooms of the home." – the home owner

A lot of thought also went into establishing the outside area. The colourful garden responds to the design of the house with various "rooms" on numerous levels that serve different functions and contain a variety of elements. There's also a series of cascading ponds, a soccer field, a cricket net and skatepark bowl.

It is no wonder that the owner refers to his home as "incredible, fun and truly our dream home". 🏡
